They made our world a lot safer.

Together we can make their lives, and the lives of their families, better than when they returned from securing our and our allies freedoms.

The men and women of our all volunteer Military services didn't intend to lose a leg or to get paralyzed, they intended to complete the mission as directed by their military leaders and then, they hoped for the best, believing in their comrades in arms and their country.

Our Nation's Military has a creed that calls for "No soldier left behind". But, as a Nation we *are* leaving them behind, because after their injuries heal we do *not* provide state of the art tools to help our veterans have the most productive independent lives possible.

You're here because *you* care.

Whether you are able to give a dollar or a thousand dollars, your donation will tell an injured veteran that "I care!" "I want you to stand tall again" and "I want you to have your independence back and live as normal and productive life as possible with your family!"

Your tax deductible donations, big or small, will help America's Huey 091 Foundation (an IRC § 501(c)(3) organization) provide advanced high-tech mobility devices for our nation's profoundly disabled veterans, thus helping them regain their independence, standing or sitting at eye level with a standing adult, able to climb curbs, steps and stairs, go out and just enjoy or work on all sorts of terrain, on their own, without barriers and without dependence on others.

Our goal, improved quality of life, regaining the dignity that comes along with greater independence, for our most severely wounded mobility challenged veterans.

If you feel that it is your turn to help but you don't know how, please consider making a donation to assist the 091 Foundation assisting our wounded troops.

Most people are skeptical about non-profit organizations, but America's Huey 091 Foundation operates with ALL unpaid Volunteers. We don't get paid for any work done on behalf of the 091 Foundation, and neither do any other volunteers.

We have two primary goals in this humanitarian mission. First is to educate Americans about the contribution of the men and women who have served in our Military and second is to help those who have been injured while so serving and sacrificed some of their freedoms so we can enjoy ours.

This year, please consider making a tax deductible donation to sustain America's Huey 091 Foundation's missions.

Thanks,

Dick Stephenson

MG Richard "Dick" Stephenson (US Army, Ret.), President
America's Huey 091 Foundation
